CTO ATHENS
Chronic Total Occlusion

Welcome letter

Dear Colleagues,

It is great pleasure and honor to welcome you to the **1st CTO International Educational Meeting**, which will take place on **5-6 June 2025** in **Athens**, at the **Eugenides Foundation**.

Over the course of these two days, together with distinguished colleagues from Greece and abroad, we will delve into the evolving and inspiring field of **Interventional Cardiology**, with a focus on **Chronic Total Occlusions (CTOs)**. Our goal is to share knowledge, techniques, and experiences that will help us achieve complete revascularization and elevate the quality of care we provide in the cath lab.

The program will feature **live case transmissions, state-of-the-art lectures**, and -most importantly- **interactive discussions**, fostering an environment of open exchange and continuous learning. We believe this meeting will offer valuable insights for all participants, regardless of experience level.

It is our hope that this will mark the beginning of a recurring and truly international educational forum.

Thank you for your participation. We're looking forward to meeting your expectations and advancing our field together.

With warm regards,

Ioannis Tsiafoutis
Director, 2nd Cardiology Department
"Korgialenio-Benakeio" General Hospital, Hellenic Red Cross
